Collection project: filename policyPriorities

The 'EU Policy Priority' trackers document the expenditures of the Research and Innovation framework program in specific policy areas that have established spending targets, such as climate and biodiversity. These trackers also cover areas where the Commission has reporting requirements, including clean air, the digital agenda, and artificial intelligence. For more details on the methodology, refer to the Climate Mainstreaming Architecture in the 2021-2027 Multiannual Financial Framework (SWD(2022)225).

Column name	Example	Description
projectID	101234808	Grant agreement number
ai	0 %	This tracker monitors Horizon Europe's financial contribution to the development and deployment of AI-based technologies and solutions. Projects that develop AI-tools as part of their research method are included
biodiversity	0 %	This tracker monitors the Horizon Europe's financial contribution to Europe's biodiversity's path to recovery including species protection, ecosystem conservation, and habitat rehabilitation, all essential for resilience in climate adaptation and addressing ecosystem services but also environmental crime and the health-environment connection.
cleanAir	0 %	This tracker monitors the Horizon Europe's financial contribution to the clean air policy (National Emission Ceiling Directive) aiming to improve ambient air quality and tackle air pollution, to protect the environment and human health.
climate	100 %	This tracker monitors the Horizon Europe's financial contribution to both mitigating climate change (e.g., contributions to the reduction of greenhouse gas emissions) and adapting to climate change by building resilience (e.g., regarding floods, droughts, spatial planning and better governance, adaptation to changing climate in value chains, etc.).
digitalAgenda	40 %	This tracker monitors Horizon Europe's financial contribution to the development of digital technologies and the digitisation of the economy and society (known as 'Digital transition').
